Create a Behavior Chain:

Using your list of your horse's favorite behaviors, create a behavior chain. Ask for the most preferred behavior or the one your horse enjoys the most last, so as the chain progresses it gets easier. Let's say my horse's number one behavior is touching the target. He also likes head down, and backing. I would start the chain by asking him to back, then cue for head down, and finally, ask him to touch the target, and then feed the whole chain! Your turn!
